CIA and Oswald -- CBS Interview

New York - CBS broadcast an interview last night with a man it described as a former [CIA] employee*who said that he once saw a CIA report on an interview with a man with ~~xxxyxxxxxxxx~~ a background very similar to that of Lee Harvey Oswald, the assassin of President John F. Kennedy.

CBS correspondent Daniel Schorr, narrating the interview, noted that former CIA Director John McCone testified before the Warren Commission investigating Kennedy's death that the CIA never had any personal contact with Oswald.

.....

Schorr said CBS has been told by the CIA that the redefector interviewed in 1962 was a former Navy man, not a marine, who worked in a plant in another Soviet city, not Minsk.

However, Schorr said, "the Navy said it has found no record of such a man."
